The Michita Engle.

MURDOCK & BROTHER, PUBLISHERS AND PROPRIETORS. TWO DOLLARS PER YEAR, IN ADVANCE

ADVERTIGING BATES MADE ENOWN OF APPLICATION THE RATES we have established for advertising will be strictly adhered to in every instance. They are as low as charged by amajority of the papers in the West, and as low as any paper formshed on a firm and lasting hasis, with a large circulation, will do business. We think besiness men can get value received by advertising with us. We ask go one to patronize us out or charity, and do not want a man's money unlesse give him value received. We could easily \$1 our columns with foreign advertisements, hombugs, patent medicines, etc., at less than our gular rates. But we hope that we never will be campilled to do so. Nothing speaks so well for a town and the enterprise of its citizens—its growth not property—as the calcums of the bord paper well filled with home advertisements of home rade and business. We shall charge all altheoreign and local, and shall not deviate from our stabilished rates. No display type larger than i rea will one used in these columns, and it no case will cuts, or black and unseenty illustrations be consisted into this paper.
